(a) An accounting rule change in the first quarter 2010 requires Tenneco to account for its accounts receivable securitization program in North America as secured borrowings. As a result, changes in funding from the North America accounts receivable securitization program are included in net cash provided by financing activities on the statement of cash flows and were previously reflected in net cash used by operating activities. At June 30, 2010, there were no borrowings outstanding under the North America accounts receivable securitization program.
